| Subject...: Wasbit's Freeware Lists - Update

=
| Wasbit's Freeware Lists (160+)

| I've been updating my old lists of freeware.
| Still some more to come
| Currently they are only available on Box.net.
| I will probably scrap Google Docs
| as it is more trouble than it's worth.

| - <http://www.box.net/wasbitlists>

| Subject...: Re: Wasbit's Freeware Lists - Update

=

| | Maurice Helwig wrote:

| | How do I download them and still keep the links active.
| | I can get the text files but the links are not active.
| | I have to cut and paste them into a web browser.

| | I open the text with Notepad++ and double-click on the
| | link.

| | With Ultraedit (not freeware) you can select the URL
| | and "open in browser". Both methods open link in
| | Firefox
| | I'm sure other text editors probably have something
| | similar.

=

| The best I've seen is Jarte (<http://www.jarte.com>),
| which is liteware.

| It automatically recognizes properly formatted links,
| doesn't even need the "http" part, and turns them
| underlined blue. To go to a link, you press the control
| key and left click on the link.

| I settled on Jarte as a Wordpad replacement years ago.

| --

| John Corliss BS206. No ad, CD, commercial, cripple, demo,
| nag, pirated, share, spy, time-limited, trial or web wares
| for me please. I filter out posts originating from Google
| Groups (and recommend you do likewise) & block (can't see
| & won't reply to) posts from the nym-shifting troll calling
| itself "»Q«".

1 #1 - Readme for wasbitlists

2

3 Updates

4

5 Updated August 2016 (8.16)

6 Updated Sept 2010

7

8 -----

9 Acronyms used on wasbitlists (normally in brackets)

10 * after site name = commercial & freeware

11 * - recommended

12 (CLi) = Command Line

13 (ffpu) = Free For Personal Use

14 (hpnf) = Home Page Not Found

15 (LFV) = Last Freeware Version

16 (nffhp) = Not Free From Home Page (but free from link given)

17 (nfohp) = Not Found on Home Page (but free from link given)

18

19 -----

20 Software

21

22 It was suggested by Brian (Groups) that this would be a good place to store freeware that might be hard to find or might otherwise be no longer available.

23 Thus there is now a 'Hard to Find' folder.

24

25 There are also a number of hard to find freewares (Rareware) hosted by Henry the Mole at The Mole Zone

26 - <http://htmole.altervista.org/mainpage.htm>

27

28

29 -----

30 Raison d'etre.

31

32 No I can't speak french but it makes me look educated.

33

34 When I first came across the internet I was pleasantly surprised at how much free software was available if only you knew where to look.

35 These lists came into being because of my poor memory. I got fed up with searching for two hours, for something that I'd seen ten minutes before & could no longer find.

36 They are a small measure of repayment, of giving something back to the internet community.

37

38 I hope you will find something here to your liking.

39

7
8 (CLI) - Command Line
9 (ffpu) - Free For Personal Use
10 (hpnf) - Home Page Not Found (by me - but you might)
11 (LFV) - Last Freeware Version
12 (nffhp) - Not Free From Home Page (but free from given link)
13 (nfohp) - Not Found on Home Page (but free from given link)
14
15
16 AML Free Disk Defrag - <http://www.amltools.com/free-disk-defrag.html>
17
18 AMS Fast Defrag - <http://www.amsn.ro/>
19 - Discontinued
20
21 Auslogics Disk Defrag (ffpu) - <http://www.auslogics.com/en/software/disk-defrag>
22 (2K/2003/XP/Vista) "does not appear to have any advantages over the standard Windows defragmenter, other than a s
lightly more user friendly interface".
23
24 AutoDefrag (dos batch file 98/ME/XP/NT/2K) - <http://www.freelists.org/post/wintips/Auto-Defrag-Methods>
25
26 AutoDefrag (2) - <http://sourceforge.net/projects/autodefrag/>
27
28 Avextinct Defragment (nfohp) - http://www.freewarefiles.com/Avextinct-Defragment_program_43889.html
29
30 Contig (CLi) -
31 <http://technet.microsoft.com/en-us/sysinternals/bb897428.aspx>
32 - Power Defragmenter Gui (for Contig) - <http://www.rejzor.tk/>
33
34 Defraggler - <http://www.defraggler.com/features>
35 "from Piriform, the company that brought you CCleaner and Recuva"
36
37 DefragNT/XP - <http://andreigaceff.tripod.com/DefragNT.html>
38 " Supports NTFS partitions only on XP but handles FAT partitions under NT/2000/XP"
39
40 DG Defragmentor - http://www.freedownloadcenter.com/Utilities/Misc_Uutilities/DG_Defragmenter.html
41 "built on top of full DOS based defrag engine "DirMS.exe"
42
43 Dirms-s = <http://www.dirms.com/>
44 - Supposedly 'Do It Right MicroSoft'. This program allows the user to defragment hard drives with a user-friendly
GUI. It is recommended to install Buzzsaw-S with DirMS-S. DirMS-S performs the initial defragmentation of the drive
and Buzzsaw-S keeps the drive defragmented "on-the-fly".
45
46 Dirms-cl is executed as a command line program. It is recommend for advanced users. This program can be used to im
plement scheduled defragmentation. DirMS-CL can only be used with Admin Rights.
47 Both programs require Windows 2000/XP."
48 The free versions have limited functionality and must be re-registered on the DIRMS website every 30 days.
49
50 Disk Defrag - <http://www.asoftwareplus.com/index.html>
51 "Optimizes Windows Disk Defragmenter by running it under optimal conditions. It restarts you computer and then run
s only defragmentation. Once defrag is over, it automatically shutdown or restart your computer. The initial restart r
efresh your system and running only defragmentation ensures that your system gives maximum attention to defrag process
, hence making it faster and not only faster but also now your defragmenter will be able to defrag more files than usu
al as there is a possibility that files which were set to be locked by OS are not yet locked."
52
53 Disk Idle Optimizer Pro (hpnf) - http://www.freewarefiles.com/Disk-Idle-Optmizer-Pro-V_program_19756.html
54
55 Diskeeper Lite (v7 build 418 - LFV) - <http://www.321download.com/LastFreeware/page29.html>
56 - "Faster than the built-in Windows equivalent, but has lesser features.
57 Note that Diskeeper Lite replaces the built-in Windows defragmentation tool when you install it, so that you can n
o longer run the Windows version alongside this new version. That is, you cannot get the best of both worlds. If you u
se XP, which has a much-improved defrag utility than earlier versions, it may be best to simply use the built-in defra
gmentation tool instead of this program." 98/ME/NT/2000/XP.
58
59 Disk Speedup - <http://www.glarysoft.com/disk-speedup/>
60 "extremely fast disk defrag tool to analyze, defrag computer and optimize disks for peak performance. It is easy
to use with its intuitive interface."
61
62 DiskTune - <http://www.diydatarecovery.nl/download.htm>
63 "an easy to use, on-demand, no frills disk defragmenter for FAT, FAT32 and NTFS formatted drives."
64

65 Fragger (defrag tester) - <http://software.bootblock.co.uk/>
66 - "Fragger can put Windows under considerable strain and should only really be used on healthy hardware."
67
68 IObit - caught stealing intellectual property
69
70 JK Defrag (now called My Defrag) - <http://www.mydefrag.net/>
71 - Portable
72 JK Defrag Gui - http://portableapps.com/apps/utilities/jkdefrag_portable

74
75 O & O defrag 2000(& XP) - <http://www.majorgeeks.com/download.php?det=4545> 2000/XP
76
77 O&O Defrag 10 Pro - <http://www.oo-software.com/home/en/download/archive/index.html>
78
79 PageDefrag - <http://technet.microsoft.com/en-gb/sysinternals/bb897426.aspx>
80 - "defrags your Windows page file, Registry hives, event log files and hibernation files. These are files that th
e built-in Windows defrager is unable to defragment since they are open for exclusive access when Windows is running.
PageDefrag is a boot-time defragmentation utility - it reboots the computer and defragments those files at boot-time,
that is, before all the subsystems in Windows start up. The utility only works in Windows NT/2000/XP."
81
82 Power Defrag - http://www.majorgeeks.com/Power_Defragmenter_GUI_d4647.html
83 "Power Defragmenter is a GUI application for program Contig by Sysinternals." (2k/Xp)

68 Alky - (Jan 2008) <http://alkyproject.blogspot.com/>
69 Alky (pronounced "AL-KEE") is a tool that allows you to convert a Windows executable to a Mac OS X or Linux binary. We are focused on high-end gaming at the moment, though we will support other applications in the future. Our binary translation layer is already working fully for OS X and Linux support is in progress. Of course, Windows applications use a very different set of libraries from Linux or OS X applications so we are also working on a library called LibAlky that will provide those Windows libraries to the application.

1 Emulation (see : Pcu18,80) - Free unless stated otherwise
2
3 World of Spectrum - <http://www.worldofspectrum.org/>
4
5
6 List is in 3 parts (probably with some overlap & duplication)
7 1. Miscellaneous
8 2. Emulators
9 3. Console Emulators
10
11 1. Miscellaneous #####
12
13 Adventure - <http://my.ign.com/atari/adventure>
14 WolRon's remake of the classic Atari 2600 game (98/Me/Xp)
15
16 Emulation Pack - pcu18
17 Transfer files from different
18
19 LCD Analyzer - pcu43
20 Check the quality of your PDA's LCD screen
21
22 Lektor - pcu43
23 Uncover or decrypt old passwords on your Pocket PC
24
25 MMPlayer - pcu43
26 Turn your PalmOS device into a portable .mp3 player
27
28 My Car PC - pcu60
29 A front-end program for a car PC
30
31 Palm Desktop - pcu43,90
32 Sort edit or back up anything to your PalmOS
33
34 Palm Reader - pcu43
35 Read eBooks on your PalmOS device
36
37 PalmPod - pcu68
38 Transfer data from your PalmOS PDA's Desktop Calendar to your iPod
39
40 PalmXP - pcu63
41 Browse through the files stored on your Palm system
42
43 PicaPic (online) - <http://www.pica-pic.com/#>
44 (Aerogun Field ;AutoSlalom ;Barrier ;Bartman ;Castle Adventure ;Caveman ;Coffee House ;Donkey Kong ;Donkey Kong II
;Donkey Kong Jr ;Fishing Boy ;G-Man ;Merry Cook ;Mickey & Donald ;Ncha Bycha ;Nu Pogodi ;Octopus ;Parachute ;Penguin
Land ;Pirate 777 ;Plane & Tank ;Search Light ;Space Bridge ;Sub Attack ;The Terminator ;Thief in the Garden ;Zelda)
45 Gaze Talk - <http://www.oatsoft.org/Software/gaze-talk/?searchterm=joystick> mouse
46 Game Commander (voice) - <http://www.oatsoft.org/Software/game-commander/?searchterm=joystick> mouse

401 Features/Limitations of well-regarded free web hosts that have been around for more than 3 years:
402
403 100WebSpace
404 <http://www.100webspaces.com>
405 FTP web space: 100 MB
406 FTP max file size upload limit: 500 KB
407 SMTP email: No
408 Banner Ad: Yes
409 Perl/CGI support: Yes
410 Mandatory participation: No
411
412 Awardspace
413 <http://www.awardspace.com>
414 FTP web space: 250 MB
415 FTP max file size upload limit: 2 MB
416 SMTP email: Yes
417 Banner Ad: No
418 Perl/CGI support: Yes
419 Mandatory participation: No
420
421 Freehostia
422 <http://www.freehostia.com>
423 FTP web space: 250 MB
424 FTP max file size upload limit: 500 KB
425 SMTP email: No
426 Banner Ad: No
427 Perl/CGI support: Yes
428 Mandatory participation: No
429
430 Frihost
431 <http://www.frihost.com>
432 FTP web space: 750 MB
433 FTP max file size upload limit: None
434 SMTP email: Yes
435 Banner Ad: No
436 Perl/CGI support: Yes
437 Mandatory participation: Average twice/week forum posting
438
439 VlexoFree
440 <http://vlexofree.com>
441 FTP web space: 300 MB
442 FTP max file size upload limit: None
443 SMTP email: Yes
444 Banner Ad: Yes, linkbacks required also
445 Perl/CGI support: Yes
446 Mandatory participation: Must submit pre-screening Interview form
447
448 x10hosting
449 <http://x10hosting.com>
450 FTP web space: Unlimited
451 FTP max file size upload limit: None
452 SMTP email: Yes
453 Banner Ad: No
454 Perl/CGI support: No
455 Mandatory participation: Monthly account portal login required

1 Freeware - Listmaking Apps (see also Catalogue)
2
3 Requirement : To list all the mp3 tracks on a drive or in a folder (including subfolders), alphabetically.
4 Thus mp3s should not be titled with a track number at the front.
5 Some apps list subfolders contents separately.
6 Apps that offer to print a list are ok if they create a file that can be saved.
7
8 Directory Lister Pro (no longer free) - www.krksoft.com
9 Directory Lister (V9.1 - ffpu) - <http://fileforum.betanews.com/detail/Directory-Lister/1066410425/1>
10 - lots of options & fairly easy to use.
11 Options 1 = File name & Files all treated together. Sort files by :Name
12
13 Karen's Directory Printer - <http://www.karenware.com>
14 - lots of options
15
16 LS File List Generator - <http://www.aplusfreeware.com/categories/util/miscutil.html>
17 - easy to use, but have to add .txt to created file manually. Shutdown errors but end result ok.
18

3 "To convert Adobe pdf to Word doc format - If it's not copywrite protected, send it as an attachment to pdf2txt@adobe.com. You will get a text version sent back to you or pdf2html@adobe.com will return an html version. Also, have a look at support.microsoft.com/support/kb/articles/q212/3/18.asp which will give you information on how to do it manually."
